

THE LODGE
AT WOODLOCH
A DESTINATION SPA RESORT

Dear Esteemed Guest,

It is with great pleasure that we announce some exciting changes at the spa at The Lodge at Woodloch. Based on your feedback and the desire to remain one of the leading destination spas in the world, we have committed to a multi-million dollar refresh to the spa area that will take place over the next few months. We all need a little pampering...including our spa!

While unfortunately the refresh will not happen overnight, we have planned diligently to ensure very minimal guest interruption. There might be small periods of time when you might experience small pockets of pampering taking place.

- Whisper, A Silent Sanctuary has completed all structural changes and is available for guest use. The new furnishings and accessories to complete the look will be revealed in late fall.
- Gather: A Social Suite and the Whisper Lounge Porch were completed earlier this year and have added new areas for post-treatment relaxation.
- The men's retreat will be receiving pampering from late summer through early winter
- The women's retreat is scheduled for a full makeover this December. The changes will take place during our annual shut-down period to avoid any disruption in relaxation.

Please pardon the Band-Aids and “beauty” tools as our pampering will be revealed in full in January, 2018.

Sincerely,

Robert Baldassari
General Manager
